1 I had to ease the tension
That paralysed my tongue,
But though I chose the surest way
The peace refused to come;

And even though they eat my heart,
The aching poems that I write
Will surely never be enough
To link two people worlds apart,
For in the end it sounds so trite,
'Je t'aime', and all that stuff.

2 It always seemed so simple
When conjured in a dream,
But through the years I've learned that things
Are seldom as they seem;

And though I could have called the names
Of some ten billion suns,
The smog blacked out my mind and I
Could only think of one;

And daft romantics such as I
No matter how their hearts cry out,
Will never get these things off pat
Until they learn how not to cry
In silence as their torture shouts
'I love you', and all that.
