v1 Walking along, Singing this song,
Nothing is wrong, I feel chip chip chipper,
Cruising the street, Everything's sweet,
Life is complete, I feel fine, fine, fine:
Taking it easy, taking it slow,
Taking the time to let this feeling grow,
Hoping this song will make you see
That darling, you're the one for me.

v2 Under the moon, Humming this tune,
Meeting you soon, I feel puck puck pucker,
Knowing you're mine, Everything's fine,
The world is divine, I feel good, good, good:
Keeping it simple, keeping it light,
Keeping the magic in the air tonight,
Hoping this tune will make you smile,
'Cos I'll be with you in a little while.

Br 1 You don't need well crafted words
To sum up how I feel,
Everything is here and now
And everything is real;

Br 2 You don't need a silver phrase
To keep the moment true,
'Cos everything is here and now
And everything is you.

v3 Walking on air, With hardly a care,
The feeling is there, I feel spiff spiff spiffing,
Everything's grand, Going as planned,
Working out, and I feel great, great, great:
Playing it cautious, nobody's fool,
But playing it well, and playing it cool,
Hoping these words will let you know
That babe, I'll never let you go.
