V1 Will I miss you when you're gone?
Or will I just move on?
Of all the things that went before,
It isn't you I hanker for,
But only who I thought you were -
And all I'll ever miss is her.

v2 Will your memory linger yet?
Or will I just forget?
The you it seems I most recall
Was never really you at all,
But someone else I wished you'd be -
And she's my one true memory.

v3 Will I love you by and by?
Or is this just goodbye?
The love I thought I carried through
Was never really love for you,
But love for who I hoped you'd be -
And she's the only girl for me.
