v1 A whirling, swirling tale of dance and song,
    A thriving, driving rhythm
    That lasts for all night long:
Ch1 Spin me round, then round again,
    We'll strike a catchy beat,
    Down the hallway, out the door,
    Then all along the street,
    Around the corner,
    Heading down
    Towards the ring road
    Out of town,
    Spin me round, then spin me round again.

v2 A dizzy, busy whirl of you and me,
    Two doleful souls that dance together,
    Spirits full and free:
Ch2 Spin me round, then round again,
    Let's spin and never stop,
    Through the crossroads, up the hill,
    Then onwards to the top,
    Astride the ridge,
    Across the lea,
    Then down the valley
    To the sea,
    Spin me round, then spin me round again.

v3 A jingling, tingling sparkle in the soul,
    Two hearts apart that fuse and start
    Within a single whole:
Ch3 Spin me round, then round again,
    Let's keep that catchy tune,
    Into orbit, round the earth,
    Then onwards to the moon,
    Let's keep on dancing out to Mars
    Then ever onward to the stars,
    Spin me round, then spin me round again.
